PRINCIPAL'S REPORT

Hi Families,

I am thrilled to let you know are now enjoying our new facilities at Frankton SDS. Our middle classes have moved into their new classrooms, the gymnasium is in operation and staff are using the staff room. The four classrooms previously occupied by middle school classes offer our staff and students extra learning spaces we have never had access to before. One of these rooms is being used as a sensory room with another to be converted into a library over the school holidays.

If you have recently visited the school you would have noticed, work has commenced to build a new ramp and deck to connect our newly relocated classroom at the top of our school with the senior BER building. Once this project has been completed, students will have full accessibility to all classrooms in the senior department, including the bus shed. The funding for this project was obtained through a grant, therefore there is no direct cost to our school. This is a great outcome.

A fortnight ago, I was most fortunate to attend the 2017 graduate camp on the Gold Coast. Our six-day adventure was based in Broadbeach Waters and involved outings each day to the many attractions the Gold Coast offers. The opportunity for our students to go away together and practise many of the life skills they have learned in class is invaluable. Camps offer the perfect setting for our staff to teach and reinforce our school's key objectives of developing communication, independence and social competencies. I am very grateful to the many staff members at FSDS who offer their time to attend camps. They are not paid any extra for the extended hours involved but value the incredible learning opportunities camps provide to our students.

Today the students and staff of Frankston SDS celebrated the 100th episode of METV. In my opinion, METV has been one of the best things we have done at Frankston SDS. Our students absolutely love it and look forward to each episode but more importantly, it reinforces key learning priorities in the school. Students have been observed considering 'Chip Candy's' opinion when choosing between healthy food and junk food. I am particularly grateful for the energy and continued enthusiasm our staff and students have showed to METV. It is this energy that makes it so special.

Over the last fortnight staff members from 'like' classrooms have come out of the classroom for one day to plan their learning programs for next term. Research shows collaborative planning to be one the highest influences on student outcomes. Next year in the new Enterprise Bargaining Agreement (EBA) recently announced by the Department of Education, schools will be encouraged and compensated by the department to allow for these days. I see this as reinforcement of our decision to schedule these days; we're on the right track.

If you are travelling over the holidays please take care on the roads and good luck if your football team is still alive.

Take care,
Scott Tucker
Principal
