Rationale:
On 26 November 2015, the Victorian Parliament passed the Child Wellbeing and Safety Amendment (Child Safe Standards) Act, 2015, to introduce child safe standards into law. The standards aim to promote cultural change in the way organisations manage the risk of child abuse and neglect so that protecting children from abuse is embedded in everyday thinking and practice.

Aim:
To create and maintain a child safe organisation that aligns policy, planning and practice to the seven key Child Safe Standards.

Implementation:
Frankston Special Developmental School will implement the Child Safe Standards to ensure the safety and wellbeing of all students at the school. Frankston Special Developmental School will promote an organisational culture that manages the risk of child abuse and neglect through widespread understanding and compliance of the seven standards set out below:

**Standard 1**: Strategies to embed an organisational culture of child safety, through effective leadership arrangements

**Standard 2**: A Child Safe policy or statement of commitment to child safety

**Standard 3**: A Code of Conduct that establishes clear expectations for appropriate behaviour with children

**Standard 4**: Screening, supervision, training and other human resource practices that reduce the risk of child abuse by new and existing personnel

**Standard 5**: Processes for responding to and reporting suspected child abuse

**Standard 6**: Strategies to identify and reduce or remove risks of child abuse

**Standard 7**: Strategies to promote the participation and empowerment of children

See: Appendix 1: Implementing the Standards
Appendix 2: Informing the school community about the Standards

Evaluation: This policy will be reviewed annually.

This Policy was ratified by school council on 11th August, 2016

if child abuse is suspected, ensuring as quickly as possible that the student(s) are safe and protected from harm

Unacceptable behaviours

As staff, volunteers, contractors, and any other member of the school community involved in child related work we must not:

- When recruiting, assessing incidents and undertaking disciplinary action we will strive to be thorough, transparent and rely on evidence.

Standard 5
Frankston SDS takes all allegations and reports of abuse seriously and has practices in place to investigate thoroughly and quickly. Our staff and volunteers are trained to align their practice with DET Mandatory Reporting guidelines (see FSDS Mandatory Reporting Policy).

FSDS staff will respond to any reasonable suspicion that a child has been, or is at risk of being abused by following the *Four Critical Actions for Schools: Responding to Incidents, Disclosures or Suspicions of Child Abuse* as detailed by DET.

Where a belief has been formed that, while a child is not subject to abuse but there are significant concerns for his/her well-being, a report will be made to Child First.

Clear and comprehensive notes will be recorded on the *Responding to Suspected Child Abuse* template of all reports made to Child First or Child Protection.

All students for whom welfare concerns are raised will have a well-being/safety plan, (developed by the welfare team in consultation with leadership and the student’s teacher) and accurate records kept of its implementation

Referrals will be made to other supporting agencies where appropriate.
Standard 6

FSDS takes a risk management approach to all school activities. In addition to general occupational health and safety risks, we will proactively identify and manage risks of abuse to our students. We will continue to implement programs empowering them to recognise and avoid potential unsafe situations; use a school-wide approach to positive behaviour; and undertake risk assessments of activities and environments to identify risks to child safety. These risk assessments will include identification of safety issues relating to:

- The differing age-range and abilities of students at FSDS.
- The disproportionate number of adults involved in the lives of students with a disability compared to the rest of the community, and the potential opportunities for abuse this creates.
- The ability of our students to make judgements about the safety/dangers of activities; the risks of their own and others’ behaviours; the environments they are in and the appropriateness of their social interactions with both familiar and unfamiliar people.
- Specific risks associated with the FSDS environment, (for example, recreation areas, personal care facilities, sheds), school activities (excursions, camps, transport) personnel (staff, visitors, volunteers, contractors).
- The safety of students who use social media, YouTube, videos/photography.

In addition:

- All Risk Assessments will be communicated to staff, documented and recorded.
- Strategies that mitigate the risk of abuse (for example, increase the likelihood of detection, remove triggers for inappropriate behaviour, reduce the permissibility of inappropriate behaviour) will be communicated to, and implemented by staff.
- The effectiveness of the strategies will be monitored as part of the annual cycle of Risk Management assessment and communicated to School Council.
- Where a risk assessment is rated as more than low, further risk mitigation strategies will be identified and implemented.
- Training in FSDS child safety processes will be provided to all new, temporary and volunteer staff as part of their induction.
- Awareness of child safety processes and procedures will be embedded in role descriptions and performance review processes.

At no time will staff:

- Prohibit or discourage school staff from reporting an allegation of child abuse to an appropriate person external to the school.
- State or imply that it is the victim’s responsibility to inform the police or other authorities of the allegation.
- Require staff to make a judgement about the truth of the allegation of child abuse.
- Prohibit staff from making records in relation to an allegation or disclosure of child abuse.
